Sitewards Instant Search Results

Manual

Contents

Sitewards Instant Search Results

1. Features

The Sitewards Instant Search Results extension automatically opens a product page when there is only one result for the specified search term. So there are no search results with only one hit anymore.

This functionality is also available when you use a filter on the search result page. When you e.g. search a clock and choose a filter with only one result you will be redirected to the product detail page of this product.

2. Requirements

## 2.1. Hardware

The same requirements as for Magento apply.

2.2. Software

Magento 1.4.0.1 or higher

PHP 5.3 or higher

3. Installation

Sitewards Instant Search Results can be downloaded with Magento Connect. In the backend of your site go to System →Magento Connect →Magento Connect Manager. Now log in with an administrator account.

In the "Extensions" tab you find the section "Install New Extensions". Here you can paste Sitewards Instant Search Results extension key. You can find it at:

http://www.magentocommerce.com/magento-connect/sitewards-instant-search-result.html

Here select "Install Now", choose your Magento Connect version and copy the key. Paste the key and proceed to install.

4. Configuration

The extension can be configured in the backend (System → Configuration → General → Instant Search Results). Here you can enable or disable the Extension.
